Regenerate access key

The current key will become immediately invalid and is not recoverable. Do you want to regenerate access key 'key1'?

Yes

No

Remember to update the keys with any Azure resources and apps that use this storage account.

Access keys authenticate your applications' requests to this storage account. Keep your keys in a secure location like Azure Key Vault, and replace them often with new keys. The two keys allow you to replace one while still using the other.

Remember to update the keys with any Azure resources and apps that use this storage account.

Set a reminder to rotate access keys

Set a reminder to manually rotate your access keys. This simply issues a notification banner indicating that key(s) need to be rotated based on the reminder set. This will not rotate your keys automatically. Your access key will be valid until you choose to manually rotate it.

☒ Enable key rotation reminders
