Terms

By clicking "Create", I (a) agree to the legal terms and privacy statement(s) associated with the Marketplace offering(s) listed above; (b) authorize Microsoft to bill my current payment method for the fees associated with the offering(s), with the same billing frequency as my Azure subscription; and (c) agree that Microsoft may share my contact, usage and transactional information with the provider(s) of the offering(s) for support, billing and other transactional activities. Microsoft does not provide rights for third-party offerings. For additional details see [Azure Marketplace Terms](#).

Basics

Subscription	Azure for Students
Resource group	azuresql
Server name	amanazuresqlserver
Authentication method	Microsoft Entra-only authentication
Microsoft Entra Admin	demo@lovemaths404gmail.onmicrosoft.com
Location	East Asia

Networking

Allow Azure services to access server	Yes
---------------------------------------	-----

Security

Identity	Not enabled
Transparent data encryption	Service-managed key selected

Additional settings

Enable Microsoft Defender for SQL	Not now

Public access

Private access

Connectivity

Public network access

Public Endpoints allow access to this resource through the internet using a public IP address. An application or resource that is granted access with the following network rules still requires proper authorization to access this resource. [Learn more](#)

Public network access

☐ Disable

☒ Selected networks

Connections from the IP addresses configured in the Firewall rules section below will have access to this database. By default, no public IP addresses are allowed. [Learn more](#)

Virtual networks

Allow virtual networks to connect to your resource using service endpoints. [Learn more](#)

+ Add a virtual network rule

Rule	Virtual network	Subnet	Address range	Endpoint status	Resource group	Subscription	State
------	-----------------	--------	---------------	-----------------	----------------	--------------	-------

Firewall rules

Allow certain public internet IP addresses to access your resource. [Learn more](#)

+ Add your client IPv4 address (49.200.158.22)

+ Add a firewall rule

Rule name	Start IPv4 address	End IPv4 address	
ClientIPAddress_2026-4-7_17-55-10	172.16.5.16	172.16.5.16	

Exceptions

☒ Allow Azure services and resources to access this server ⓘ
